## Customer Reviews

I bought my first quarter collection book years ago. I assumed this one would be just like the old one. For the most part it is, but it is smaller and the quarters are extremely difficult to get into the holes. I had to use a glass to push them down and make them stay. It looks great, however, and I'm pleased with my purchase.

The book is a simple way to collect and display all of my quarters. It will be awhile before I even get to use the book but I wanted one to match my Vol 1 book. I have several books from Whitman Publishing and have never had a problem.

Bought this for the future coins, holds quarters very well. Coating on the outside is very nice, very easy to clean. Doesn't come with quarters.

I got these to put coins in to give with birthday gifts. Go in easy and look very nice as a gift.

It does the job although I wish I could find the earlier hard folder like the one I started with.

Glad I found these for my new quarters. Finally no more loose quarters.

Great book with all the labels needed for 6 years worth of quarters.

Always love a coin book. Cheap and fun entertainment for all ages.
