## **Customer Reviews**

The best slow cooker recipe so far that i have the food are great and the recipe are easy to follow which you will not regret cooking for your self and also i love the idea of slow cooker because the flavor mixed well!

These are the best 100 slow cooker recipes! The thing that I like most is that there are desserts also. The instructions are easy to follow and the ingredients are not hard to find. My family loves all

the meals that I've prepared so far, which is the most important thing for a mom.

It contains many recipes that will suit for my healthy lifestyle. This is one hell of a catch! I've been reading a lot yet I find this the best one right now. I love this book. It helped me a lot. Nice job author!

I will be very busy, starting in fall and rely a lot on my trusty crock pot to help save time. The problem I face is that I have the same basic recipes and even when I look online for ideas, the same stuff comes up. This book gave me tons of new ideas that I am excited to try. I liked how it was easily broken down into the types of meals and main protein (chicken, beef, veggie, desserts, etc.). I love seafood but honestly have never considered cooking it in a crock pot so I am definitely eager to try out the seafood recipes. Also the mango-coconut cake looks soon good and so simple! Going to try that out first bc I have a craving since seeing it haha. Definitely recommend for someone interested in an abundance of new crock pot ideas.

Imagine: you are working or sleeping, but at the same time your food is preparing. When you return home or wake up, you can eat delicious, fresh and warm meal. How it is done? It is slow cooker that makes this job for you and saves you time. If you already have this useful piece of modern technology or are going to purchase it, this book will be very handy. To receive a great bundle of excellent recipes for slow cooker is a nice gift for you! They are so diverse! Some of recipes are exotic for me: I even don't know names of used vegetables or fruits. So, every reader can find something suitable. What a pity that recipes are not accompanied by pictures!

After reading this book, I've learn some things like what food to eat and what are foods to avoid. This book give me an idea on what are those slow cooking healthy food are all about. I've tried the Lime-Chili Chicken Thighs and the Crock-pot Onion Potatoes, It was amazing and I cant wait to try something new this coming weekend. Nice book. Having all this recipes in one book is really awesome. Nice one indeed.

Great recipe book, can't say anything negative about it. A ton of recipes that everyone will find something they like. Recipes are conveniently split into categories, from seafood, vegetarian to chicken, soups and more. Book is formatted well, which I don't see in a lot of books and it's annoying. Just simply great recipe book. Can't complain.
