# All Natural Living: 75 Non-Toxic Recipes For Home & Beauty

## Synopsis

All Natural Living is the ebook to get your started on a toxic-free life. With 75 non-toxic and all natural recipes, you'll be amazed at how easy it is to say "goodbye" to dangerous chemicals. Federal regulation does not require chemicals to be tested or proven safe before manufacturers include them in consumer products. As a result, you may have noticed there is an ever growing list of products and chemicals found harmful to humans only after they have been released to the public. The only practical solution is to reduce or completely avoid products that may contain toxic substances, especially in the home where many of Americans spend the majority of their time. All Natural Living has recipes for both home and beauty. Learn how to make your own dish detergent, laundry detergent, all purpose cleaner, makeup remover, foundation, shampoo, conditioners, lotions, body butters and much MUCH more. Previously released as "Toxic Free" this ebook has been sold to over 10,000 people. Join the families dedicated to making their home safer by empowering yourself with the knowledge of making your own products.

## Customer Reviews

-it most of these recipes are on her web page and I tried several of these recipes and though they are cool ideas I have yet to find one that actually works well enough to change my existing product to one of her recipes. The mascara literally melts off your face and the cinnamon is way too hot on your face to use in the foundation and there aren't many fine spices to replace it. shampoos left my hair greasy and even after weeks all it gave me is zits!! I really want to make natural products but these were a waste of money.

I was new to making my own products. This book helped me plunge right in without all the trial and error. I have already recommended it to family and friends. Would buy it again in heart beat!

I like Robin's style of writing. I appreciate her honesty. I have made many of the recipes in this book. Best of all, I had most of the ingredients already!

So very many helpful tips and recipes in this. I am gradually making more and more of my own products around my home for better health and to save money. This gave me ideas I never even thought of. Very helpful. I received this product at a discount in exchange for my honest and unbiased review.

I appreciate all the recipes, etc.s found in this book for non-toxic household items and how to incorporate them in every day life. The author suggests using non-toxic ingredients found in most kitchens and pantries so no fancy or costly items needed.

I love this book! It's perfect for beginners who are wanting to learn the basics. A quick and easy read with very clear and easy instructions on how to make everything and what use, along with links to helpful things like what to get and where to get it. This is exactly what I was looking for to help me start living all natural! Thanks to the help from this book, I have just made my first Oil Cleansing Method face wash! SO easy! For the couple of bucks that this book cost...WELL WORTH IT!!!

As usual, Robin is right on the mark with great information. I have learned so much about how to improve our simple living and can't thank her enough!

Loved this book! Very well written A+ info thx Robin. More people need to really need to educate themselves with natural ways like this book offers.
