Customer Reviews

I bought this for a friend who just recently got married but I couldn't help making some copies of some of the awesome recipes in this book! They have a great array of recipes and the book is sectioned off in a really adorable way , "One Year Anniversary" menu/recipes, "Superbowl Sunday", "When In-Laws Come Over for Dinner" -- just a really cute very "newlywed" themed cookbook. Well priced too.

Arrived very quickly which was great because it was a last minute gift purchase. Great cookbook - even copied down some of the recipes myself before wrapping it up. Very easy to follow recipes with standard ingredients and clear, uncomplicated instructions.

I was expecting easy to follow, and easy to make, recipes as would be fitting for a couple starting out. However, while these are great recipes, they are certainly not easy nor are they for a beginning

cook. I have been cooking for over 45 years, and I was surprised at the complexity.

Bought this as a gift. Has a lot of easy to follow recipes and common, pleasing meals for picky eaters. Recipes don't require extravagant ingredients or steps that may be difficult for the inexperienced chef!

If you know a bride to be with kitchen terrors, this is the book for you/the bride. My friend to whom I gave the book has experimented with it every chance she has had, and the results: applause from all who are lucky enough to be invited to dine! Easy directions, no outrageously challenging spices to find, and solid fare make this a great starters cookbook.

This is a book my daughter wanted after borrowing it from the library. She loves it!
