Customer Reviews

This is a pretty funny book and I got to say a lot of it is too accurate when you've actually lived this lifestyle for any amount of time and tried talking to "normal" people about it. I've heard it all and apparently so has this book's author as they go through all the hilarious comments we hear from skeptics and some of the witty funny responses that can be used to reply to these people

It is a nice and funny booklet for 1 afternoon of reading. Despite it is short, it gives the reader very nice review of the compromises which makes Ronnie's life easy and practical. I think that the main aim of this book is to liberate all raw fooders, who spend much too much time thinking and living for food alone. Let me quote Dr. Shelton: "Do not become one-sided in your manner of living. You cannot remain or become strong through exercise alone, or diet alone, or rest and sleep alone. Fresh air and sunshine alone are not enough. Do not imagine that by [correct] breathing alone you can reach the heights. All these things are good, but life is more than exercise, or food and drink; more than thought, or rest and sleep. It is all these and more. Life must be lived as a whole." I think this is clearly and in a funny way presented in this booklet! Great job Ronnie!

Ronnie is so dedicated to spreading the raw vegan truth that it is just admiring! And here he presents some aspects in a witty way! Much entertaining!

This ebook is hilarious! Question - "Why do you eat so much fruit?" ... Answer- "I like pooping. A LOT!" - Conner McMillen :) lol

I nearly peed my pants and some of the answers LOL..great little book

I've learned more on the back of a store receipt.
