## Customer Reviews

Office 2013 bible has many examples that will help you get the most out of Office 2013. This book has lessons about all the Office 2013 programs, but is limited in PowerPoint, and Excel, but that's because they have a whole book for each of those programs. I would say that these Office Bible books are a better reference guide than lesson book, because the lessons could go into more detail.

This Bible is a must for MS Office users. We were migrating from Lotus Spreadsheet, Database and Word since forever so we had a very steep learning curve. This instruction manual got us up and running. And we're still using it !!

A good companion to the Excel, Word, Power Point and Access books in the same series. This would be a good choice for someone just getting started with Office.

VERY EASY TO USE & A GREAT HELP TO WHAT'S NEW. WOULD WITHOUT A DOUBT RECOMMEND THIS BOOK, JUST WONDERFUL.

Good book but did find out I knew more than I thought.

Indeed comprehensive!
