Relocate! 25 Great Bug Out Communities: Safe Places To Live If Bad Things Happen - Wonderful Places To Call Home If They Don't.

Synopsis

In today's interconnected world, a single catastrophic event can dramatically change your life. A terrorist attack, deadly virus, financial meltdown, oil shortage or a shutdown of the electrical grid - these are just a few examples of situations that can drastically alter your life and the lives of your family and your country. In the aftermath of hurricane Katrina, desperate people stripped store shelves, looted and robbed. No one was safe. SHTF. Government bureaucracies were ineffectual. For the residents of New Orleans, it was TEOTWAWKI (The End Of The World As We Know It). Survival became an issue, regardless of the level of preparedness. How safe are you - right now? If you live near a large urban area local resources will be strained in a hurry. Evacuations will create massive traffic jams. "Bug Out Locations" may be far from home and difficult to protect and maintain. There is another way. What if you lived in a town of practical folks who enjoy the outdoors and understand the importance of self-reliance? A community with little crime, good public schools, great hunting and fishing opportunities? In this book, you'll find 25 GREAT BUG OUT COMMUNITIES. Secure places to work, play, raise a family, retire. Places you'll love to call home! You'll get loads of information about every community. Plus, chapters to help you find contacts, employment, and tips to help you adjust to life in your new community. Where to stay, where to play, what the weather is like, and how to make your home secure. Whether you're a Prepper, or just want to live in a safer environment, you'll find a lot of useful information in RELOCATE! RELOCATE! 25 GREAT BUG OUT COMMUNITIES. Safe Places to Live If Bad Things Happen... Wonderful Places to Call Home If They Don't is a guide to help you and your family find safety and security in an uncertain world.

Customer Reviews

I was looking for Joel Skousen's book, Strategic Relocation, and came across this. I didn't want to spend the money on Skousen's book at the time, so I grabbed this instead. It's not bad for what it is. However, I feel like the work he's done could be fairly easily done by anyone on the internet. Starting with Google Maps and some Wikipedia searches, even the least informed person could figure out enough details about an area to start their search. The real value is in having someone lay out a very clear, deliberate, and thorough list of considerations you should keep in mind, with regional concerns added in (e.g. water availability in the desert, winter preparedness in the upper Midwest, etc.). This book doesn't do a great job of this. It's somewhat generic info, as I remember. It's good for someone who just clued in to the fact that the world in 2014 is not Mayberry and choosing an area for its safety as well as other factors is a good long-term plan. For the rest of us who already knew this, this resource won't provide much in the way of new information. But it's cheap, so why not?

I would recommend this book to all people concerned with prepping/preparing for a catastrophe or terrorist attack on the United States. I like the fact that this book listed not only information about finding work in your new community, but also listed things such as Median Income, Average yearly rainfall, soil conditions, (i.e., radon gas) and a lot more. The book's author also gives tips for fitting in to your new community, a list of things to have at home in case of an emergency, info. about buying shelf-stable foods, etc. All in all a great read!!

Relocate! is not just for the end-of-the-earth survivalist. It is a must-read for every parent and every family leader. Not only does the author inform regarding the book's cover topics, he also gives background and insight into the fear/theory/likelihood of life threatening situations and their remedy techniques. All this is given in a reasoned, objective manner. Family leader, did I say? The book also gives lessons in being a good citizen and good neighbor: lessons that will benefit everyone,

especially every child.

this book is good for comparing different communities. the author's criteria cover such things crime rate and cost of housing. it doesn't cover everything i am considering but it is an excellent starting place to narrow your list of possibilities.

If your really into prepping for the EOW then its probably a good primer. I downloaded to see what they had to say about the communities that were the best to fall back on. Its worth a skim read on that issue.

I really enjoyed the book. I am considering a move in the future and I will use the info in the book.

I like this book, because I am a New Preper, and was interested in seeing some of the bug out locations, that I was not aware of. These days, safe places live are hard to come by. Picked up some good ideas-----Jim.

I didnt agree with any of the cities 100% but it made me research my own in the same states. No way would I ever be caught in a city of 25,000 people during a zombie apocalypse! That waaay to many zombies lol
